

# STOP

# THE BLEED

# MONTH

**Stop the Bleed training is important all year round. May is Stop the Bleed month which means that we focus special attention on getting the word out about training. It's easy, fast, and could save your life or someone you know. Anyone can take the training. No experience necessary!**

**Visit [stopthebleedtexas.org](http://stopthebleedtexas.org) to learn more about what our friends are doing across the state this month.**
